CHILD PROTECTION AND CREATING SAFE ENVIRONMENTS-BULLYING PREVENTION MONTH: Relational bullying is unwarranted, persistent, unwelcome behavior in the form of criticism, isolation, or fabricated allegations that can damage relationships. Examples include social exclusion ("You can't be with us"), spreading rumors ("Did you hear...?"), and withholding friendship ("I won't be your friend if you..."). Though relational bullying can often seem ambiguous to outside observers and often garners less attention than physical bullying or verbal bullying, it should not be discounted simply as normal, adolescent behavior. In fact, several recent studies suggest relational bullying is more strongly related to emotional distress and teen depression than any other form of bullying.
