**Child Protection and Creating Safe Environments**

Diocesan Child Protection Policies: The Diocese of Erie, along with all other dioceses in the United States, has policies and procedures in place to address the national problem of child abuse and to aid in maintaining safe environments. The three main components of the Policy for the Protection of Children are: screening of all employees and volunteers who work with minors, training of all youth, parents, employees and volunteers, and reporting all suspected child abuse. The diocese is committed to promptly reporting any suspected child abuse directly to ChildLine or law enforcement. The diocese requires on-going screening and training of all personnel, paid or unpaid, who have regular contact with our children and youth under the age of 18. The diocese also requires yearly safe environment training of our children, youth and parents regarding touching-safety and safe environments. Visit <https://www.eriecld.org/childprotection/> to read the policy and learn what the diocese requires for all personnel who work with children and youth in parishes/schools/agencies.
